

*Risk Solutions for
a Complex World*

INTEGRITY | COMMITMENT | EXPERIENCE

Research Associates (Operations)

Steve Vickers & Associates (“SVA”) www.stevevickersassociates.com is a specialist risk mitigation, corporate intelligence and security consulting company. The company serves financial institutions, private equity funds, corporations, high net-worth individuals and insurance companies and underwriters around the world. The company is expanding its network and requires Hong Kong based Research Associates to support ongoing operations.

Responsibilities include:

- Collection, collation and analysis of information from the research of open-source records to support ongoing operational and consulting projects;
- Production of research reports in English;
- Analysis of current events;
- Market analysis;
- Due diligence projects.

Applicants should have:

- Fluency in English and Chinese (Mandarin);
- A high level of computer literacy, with practical experience in online information retrieval and internet navigation;
- Excellent communication skills with analytical & report writing experience;
- Previous relevant experience in, for example, corporate research, financial research or journalism would be advantageous;
- A proactive approach;
- Be willing to work under tight deadlines.

Interested parties should send a full resume to mail@stevevickersassociates.com
